

Sensor shelter WITH NATURAL VENTILATION

For universal use

For all weathers and for protection against radiation the sensor shelter with natural ventilation is designed for universal use with relative humidity and air temperature measuring instruments.

- natural ventilation of the sensors
- light and radiation transmission nearly eliminated
- easy installation
- very robust
- to be used individually for different types of sensors
- improved lamellar system
- including mounting material for different poles
- made from UV and weather-proof material
- no return of heated air into the ventilation circle

APPLICATIONS

- classical and agricultural meteorology
- industry and hydrology
- artificial snow plants
- traffic meteorology
- building services

Professional Line	Sensor shelter
Id-No.	00.08141.600000
Design	Mast mounting: Ø 25...50 mm
Dimensions	Ø 120 mm, Height: 300 mm (incl. mounting)
Amount of lamellas	11
Weight	0.95 kg
Included in delivery	Screwing for sensor diameter 14...21 mm
Options (order separately)	32.08141.001010: Adapter for sensor diameter 5 mm 67.26010.540100: Screwing for sensor diameter 18...25 mm

As of: 24.07.2022
